Hi Betsy,

I've clearly have not made the deadline, but here are my comments. I had started with PFOS and only recently looked at PFOA. Let me know if you have questions.

Chad

Chad, regrettably, next week is too late. I needed the comments by last Friday. EPA would like to release these documents at the end of the month and they need to be submitted for processing very soon. I would like to request that you to send what you have now, particularly for PFOA.

Sorry for the confusion,

Betsy

Hi Betsy,

I've partially reviewed the documents and can get you my comments next week.

Chad

Greetings Chad,

In our conversation on 2/26 you indicated you would provide any comments from NIEHS by 3/4. Can I assume you have no further comments on these documents?

Thanks for your consideration, Betsy

Subject: PFOS and PFOA documents for NIEHS review
Importance: High

Greetings,

Attached above are the internal review drafts of four documents we have developed. The documents PFOA HA 021616 and PFOS HA 02 26 16 are approximately 80 pages and summarize the basis for the HAs. The more detailed Health Effects Support Documents (HESD) for PFOA (PFOA 010816) and PFOS (PFOS 121715) are also provided for the sake of completeness; these are much longer and complex documents.

These documents are still in review internally at EPA and may still change as a result of comments we receive. We are requesting that NIEHS focus on the dose-response sections of the HAs for PFOA and PFOS (section 6.0), including our selection of the critical study and the exposure scenario. We are requesting any comments you may have on that section or other sections of the documents by March 4th.

Please call if you have questions. Many thanks, Betsy
